Precautions and Possible Side Effects

Although CBD is usually well accepted, one should be aware of any adverse effects and take necessary precautions:

- **Dry Mouth:** A dry mouth might result from CBD lowering saliva production. Drinking plenty of water can lessen this impact.
- **Drowsiness:** Especially at larger dosages, CBD can occasionally make one drowsy. Changing the dose will help control this adverse effect.
- **Digestive Problems:** Some individuals might have little digestive problems like diarrhea or changes in appetite. Usually transient, this goes away with time.

Care Instructions

- **See a Medical Professional:** Before using CBD products, get medical advice if you are pregnant, breastfeeding a child, or on any medications.
- **Start Low:** To reduce the chance of adverse effects, start low and raise it progressively as needed.
- **Verify Allergies:** If you suffer from food allergies in particular, be sure none of the gummies include any of your allergens.
